FILTRATION CHARACTERISTICS

Filtration Efficiency	at 1 µm	n.a
Filtration Efficiency	at 3 µm	n.a
Air Permeability	at 100 Pa	n.a

Test run by the Direction General de l'Armement, DGA, France.
The tests were carried out accordance with the test protocol described in the DGA document of March 25, 2020.

CARE TREATMENT

We generally recommend washing at 60° C before use. Since these articles were specially developed for clothing applications, we accept no liability of our materials for medical and personal protection equipment. It is required to carry out testing and homologation to ensure that they meet regulatory standards for usage in mask applications.

Not tested for application in contact with skin.
