

Andrew Dalziel - Vice-President of Industry Strategy - Infor

Andrew Dalziel is a Vice-President of Industry Strategy at **Infor** with a key focus being on Fashion. He and his team focus on resolving the business needs and industry-specific challenges of organizations using Infor's industry cloud SaaS solutions to deliver business outcomes.

He joined **Infor** in 2013 and worked various leadership roles. Dalziel earned an MBA from Bradford School of Management, a master's degree in Computer Aided Engineering Design from Strathclyde University, and a bachelor's degree in Engineering Technology from Robert Gordons.

Join Infor VP of Strategy, Andrew Dalziel for this presentation where he will discuss how AI is revolutionising the fashion industry, from predicting demand and optimising inventory to enhancing customer experiences and improving sales efficiency.

Attendees will learn how cutting-edge technologies like AI-powered innovation can be implemented with clear responsibilities, speed and low risk to streamline operations, reduce costs, and drive growth. By attending, you'll gain valuable insights into how AI can help your business stay competitive in the ever-evolving fashion landscape.
